- M.S Word
- Power Point

EXPERIENCE

**Project based on Hydrolic Machines
A Working J.C.B**

A working project which uses the mechanical energy to convert it to the electrical energy can be used in future for uplifting heavy weight.

**Project on working Drone
made from garbage**

A working project on drone which uses garbage to make the garbage the from waste products . It includes all the equipments that a normal drone contains with propellers etc.

**Project of Amazon Website
with Additional Designing**

A project which helps me to get more knowledge about the HTML AND CSS designing and also helps me to develop the basics of JAVASCRIPT that can lead me to Full Stack Developer in future.
